Special PSE 2020
Plasma Surface Engineering

International Conference & Industrial Exhibition www.pse-conferences.net/pse2020
September 7 – 10, 2020 | Trade Fair Erfurt, Germany

August 24, 2020

Dear colleagues,

Special PSE 2020 will be dedicated to the main topic:
“Plasma Technology for New Energy Concepts”.

The **Industrial Workshop** focusses on this topic. Experts from industry will discuss the contribution of plasma surface technologies to the development and improvement of energy-related technologies such as **fuel cells, batteries, and hydrogen generators**.

Main Topic
Special PSE 2020

The **Industrial Exhibition** and the **Industrial Evening** are very popular PSE events for the exchange of expert knowledge and the development of personal contacts. You will find the program link below.
